

Ethnobotany of Millets
From Villages in the Indian Subcontinent

2024.7.13

Mikio KIMATA

Contents

Preface Encounter in the Indian Subcontinent	• • • 1
Chapter 1. Ethnobotany of millets and research methodology	• • • 6
Introduction	
1.1 What are kinds of the millets?	
1.2 Many millets in the Indian Subcontinent	
1.3 What is a discipline of ethnobotany?	
1.4 In the perspective of the discipline on learning environments	
1.5 Preservation of biocultural diversity	
Addendum 1: Ethnicity, nation and their word usage	• • • 62
Supplement 1: Grains in the agricultural and classical books on India	• • • 68
Chapter 2. Diversity of nature and culture in the Indian Subcontinent	• • • 84
Introduction	
2.1 Geography and Environment	
2.2 Long history	
2.3 Diversity of ethnicity	
2.4 Diversity of religions	
2.5 Diversity of languages	
2.6 Summary	
Addendum 2: A Hypothesis on the dispersal of farming and languages	• • • 118
Chapter 3. Diversity of the processing and cooking grains in the Indian Subcontinent	

	• • • 134
Addendum 3: The origin and dispersal of the processing and cooking grains	• • • 182

Chapter 4. Agricultural complex of millet in South India • • • 224

Introduction

4.1 Karnataka

4.2 Tamil Nadu

4.3 Andhra Pradesh and Telangana

4.4 Kerala

4.5 Variety of Cooking made from Grains

Addendum 4: Nicobar Islands, The Andaman and Nicobar Islands, and Lakshadweep Islands

Chapter 5. Agricultural complex of millet in East India

Introduction

5.1 Orissa

5.2 Bihar and Jharkhand

5.3 West Bengal, Darjeeling and Sikkim

Addendum 5 North-East States

Supplement 2: Tea cultivation and the culture of favorite items

Chapter 6. Agricultural complex of millet in North India

Introduction

6.1 Himachal Pradesh

6.2 Uttar Pradesh and Uttarakhand

6.3 Haryana and Delhi

Supplement 3: Holly foods of Hindu

Chapter 7. Agricultural complex of millet in Central India

Introduction

7.1 Maharashtra

7.2 Madhya Pradesh and Chattisgarh

Chapter 8. Agricultural complex of millet in West India

Introduction

8.1 Jammu and Kashmir

8.2 Panjab

8.3 Rajasthan

8.4 Gujarat

Supplement 4: Food culture of Indus Civilization

Chapter 9. Agricultural complex of millet in Pakistan and Afghanistan

Introduction

9.1 North-West Frontier Province

9.2 Azad Kashmir

9.3 Islamabad and Rawalpindi

9.4 Karachi and Sind

9.5 Baluchistan

Supplement 5: Holly Foods of Muslim

Chapter 10. Agricultural complex of millet in Nepal and Bhutan

Introduction

10.1 Nepal

10.2 Bhutan

10.3 Chan fermented from finger millet

10.4 Grains and faith

10.5 Summary

Chapter 11. Agricultural complex of millet in Bangla, Sri Lanka and Islands in Indian Ocean

Introduction

11.1 Bangla

11.2 Sri Lanka

Addendum 6: Maldives

Chapter 12. Agricultural complex of millet in Central Asia and the neighboring Countries

Introduction

12.1 Geography of Central Asia

12.2 History of expeditions in Central Eurasia

12.3 Ethnicity and language in Central Asia

12.4 Field research and herbarium specimen and seeds

12.5 Inner Mongolia

12.6 The Origin and dispersal of Millets

12.7 Cooking methods of grains

Addendum 6: Central Eurasia and Afro-Asia

Addendum 7 : Agricultural complex of millet in Europe

Addendum 8: Agricultural complex of millet in Africa

Addendum 9: Agricultural complex of millet in North and South America

Chapter 13. A dispersal hypothesis on the agricultural complex of millet and then the future

Introduction

13.1 A Dispersal hypothesis on the agricultural complex of millet and their future

13.2 The Traditional Agricultural Complex which we would like not to change in India

13.3 The Traditional Agricultural Complex on the upland which we would like to recover in Japan

Addendum 10: FAO World Agricultural Heritage and Inter National Year of Millets, and UN Decade of Family Farming

Final Chapter. The Future trend of millets in Japan and the World
